JOURNAL OF ELECTROANALYTICAL CHEMISTRY

Subject Index of Volume 470

Ac impedance spectroscopy
Assessing the apparent effective thickness of alkanethiol self-assembled monolayers in different concentrations of $Fe(CN)_6^{3-}$/$Fe(CN)_6^{4-}$ by ac impedance spectroscopy, 9
Adsorption
Adsorption of pyridine on a polycrystalline gold electrode surface studied by infrared reflection absorption spectroscopy, 136
Alkanethiol
Assessing the apparent effective thickness of alkanethiol self-assembled monolayers in different concentrations of $Fe(CN)_6^{3-}$/$Fe(CN)_6^{4-}$ by ac impedance spectroscopy, 9
Ammonia
Cobalt(II) porphyrazine catalysed reduction of nitrite, 126
Electroreduction of nitrate ion to nitrite and ammonia on a gold electrode in acidic and basic sodium and cesium nitrate solutions, 46
Anodic electropolymerization
Electrochemical synthesis and structural studies of copolymers based on the electrooxidation of pyrrole and some salen compounds, 77
Antibody–antigen reactions
The electrochemistry of antibody-modified conducting polymer electrodes, 144
Apparent effective thickness
Assessing the apparent effective thickness of alkanethiol self-assembled monolayers in different concentrations of $Fe(CN)_6^{3-}$/$Fe(CN)_6^{4-}$ by ac impedance spectroscopy, 9

Binary solvent system
The electrochemical copolymerization of pyrrole and furan in a novel binary solvent system, 23
Biosensors
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part I. Theoretical treatment of the catechol/polyphenol-oxidase system, 53
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part II. Experimental study of the catechol–polyphenol oxidase system immobilized in a laponite clay matrix, 61

Carbyne
Synthesis of carbyne-like nano-particles by electrocatalytic dehydrochlorination of 1,1,2-trichloroethane, 96
Catalysis
Surface redox catalysis and reduction kinetics of hydrogen peroxide on copper–nickel alloys, 31
Chemiluminescence
Detection of near-wall hydrodynamic effects by electrochemiluminescence, 90
Chronoamperometry
Theory of the chronoamperometric transient for electrochemical nucleation with diffusion-controlled growth, 70
Clay modified electrode
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part II. Experimental study of the catechol–polyphenol oxidase system immobilized in a laponite clay matrix, 61
Cobalt
Cobalt(II) porphyrazine catalysed reduction of nitrite, 126
Conducting polymers
The electrochemistry of antibody-modified conducting polymer electrodes, 144
Coordination
Oxidation of halides by redox enhanced ferricyanide in the $[Fe^{II}–CN–Pt^{IV}]_n$ coordination polymer: an optically triggered process, 99
Copolymers
Electrochemical synthesis and structural studies of copolymers based on the electrooxidation of pyrrole and some salen compounds, 77
Copper–nickel alloys
Surface redox catalysis and reduction kinetics of hydrogen peroxide on copper–nickel alloys, 31
Current transients
Early stages of mercury electrodeposition on HOPG, 120
Cyclic voltammetry
The electrochemistry of antibody-modified conducting polymer electrodes, 144

Defects
Assessing the apparent effective thickness of alkanethiol self-assembled monolayers in different concentrations of $Fe(CN)_6^{3-}$/$Fe(CN)_6^{4-}$ by ac impedance spectroscopy, 9
Dimethylsulfoxide
Electrode kinetics of Eu^{3+} in dimethylsulfoxide, 1
Double layer capacitances
Electrode kinetics of Eu^{3+} in dimethylsulfoxide, 1

Electrocatalytic dehydrochlorination
Synthesis of carbyne-like nano-particles by electrocatalytic dehydrochlorination of 1,1,2-trichloroethane, 96
Electrochemical amplification
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part II. Experimental study of the catechol–polyphenol oxidase system immobilized in a laponite clay matrix, 61
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part I. Theoretical treatment of the catechol/polyphenol-oxidase system, 53
Electrochemical copolymerization
The electrochemical copolymerization of pyrrole and furan in a novel binary solvent system, 23
Electrochemical nucleation
Theory of the chronoamperometric transient for electrochemical nucleation with diffusion-controlled growth, 70
Electrochemistry
Detection of near-wall hydrodynamic effects by electrochemiluminescence, 90

PII: S0022-0728(99)00286-7

Electron tunneling
Assessing the apparent effective thickness of alkanethiol self-assembled monolayers in different concentrations of $Fe(CN)_6^{3-}$/$Fe(CN)_6^{4-}$ by ac impedance spectroscopy, 9
Separation of pinhole and tunneling electron transfer processes at self-assembled polymeric monolayers on gold electrodes, 114
Electro-oxidation
Electrochemical nitration of naphthalene in the presence of nitrite ion in aqueous non-ionic surfactant solutions, 157
Electropolymerisation
Electropolymerization of methacrylonitrile on a rotating disk electrode at high spinning rate, 14
Electroreduction
Electroreduction of nitrate ion to nitrite and ammonia on a gold electrode in acidic and basic sodium and cesium nitrate solutions, 46
Eletrocatalytic
Cobalt(II) porphyrazine catalysed reduction of nitrite, 126

Ferrocenemethanol
Addition of α-hydroxyalkylferrocenes to electrochemically oxidized poly(aniline), 166
Furan
The electrochemical copolymerization of pyrrole and furan in a novel binary solvent system, 23

Gas bubbles
Detection of near-wall hydrodynamic effects by electrochemiluminescence, 90
Gold electrode
Adsorption of pyridine on a polycrystalline gold electrode surface studied by infrared reflection absorption spectroscopy, 136
Separation of pinhole and tunneling electron transfer processes at self-assembled polymeric monolayers on gold electrodes, 114
Grafting
Electropolymerization of methacrylonitrile on a rotating disk electrode at high spinning rate, 14

Halide
Oxidation of halides by redox enhanced ferricyanide in the $[Fe^{II}–CN–Pt^{IV}]_n$ coordination polymer: an optically triggered process, 99
Halide ion
Adsorption of pyridine on a polycrystalline gold electrode surface studied by infrared reflection absorption spectroscopy, 136
Hg electrodeposition
Early stages of mercury electrodeposition on HOPG, 120
Hydrodynamic imaging
Detection of near-wall hydrodynamic effects by electrochemiluminescence, 90

Immunochemical sensor
The electrochemistry of antibody-modified conducting polymer electrodes, 144
Impedance spectroscopy
The electrochemistry of antibody-modified conducting polymer electrodes, 144
Infrared spectroscopy
Adsorption of pyridine on a polycrystalline gold electrode surface studied by infrared reflection absorption spectroscopy, 136
In situ ESR/spectroelectrochemistry
Electrochemical synthesis and structural studies of copolymers based on the electrooxidation of pyrrole and some salen compounds, 77
In situ STM
Early stages of mercury electrodeposition on HOPG, 120

Kinetic model
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part II. Experimental study of the catechol–polyphenol oxidase system immobilized in a laponite clay matrix, 61
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part I. Theoretical treatment of the catechol/polyphenol-oxidase system, 53
Kinetics
Surface redox catalysis and reduction kinetics of hydrogen peroxide on copper–nickel alloys, 31

Luminol
Detection of near-wall hydrodynamic effects by electrochemiluminescence, 90

Maldi-Tof spectrometry
Electrochemical synthesis and structural studies of copolymers based on the electrooxidation of pyrrole and some salen compounds, 77
Mass transfer
Detection of near-wall hydrodynamic effects by electrochemiluminescence, 90
MCFC
Comparative study on the oxygen dissolution behaviour in 62/38 mol% Li/K and 52/48 mol% Li/Na carbonate, 39
Micelles
Electrochemical nitration of naphthalene in the presence of nitrite ion in aqueous non-ionic surfactant solutions, 157
Modified conducting polymer
Addition of α-hydroxyalkylferrocenes to electrochemically oxidized poly(aniline), 166
Molten carbonate
Comparative study on the oxygen dissolution behaviour in 62/38 mol% Li/K and 52/48 mol% Li/Na carbonate, 39
Monolayer
Separation of pinhole and tunneling electron transfer processes at self-assembled polymeric monolayers on gold electrodes, 114

Naphthalene
Electrochemical nitration of naphthalene in the presence of nitrite ion in aqueous non-ionic surfactant solutions, 157
Nitrate ion
Electroreduction of nitrate ion to nitrite and ammonia on a gold electrode in acidic and basic sodium and cesium nitrate solutions, 46
Nitration
Electrochemical nitration of naphthalene in the presence of nitrite ion in aqueous non-ionic surfactant solutions, 157
Nitrite
Cobalt(II) porphyrazine catalysed reduction of nitrite, 126
Nitrite ion
Electroreduction of nitrate ion to nitrite and ammonia on a gold electrode in acidic and basic sodium and cesium nitrate solutions, 46
Nucleation and growth
Early stages of mercury electrodeposition on HOPG, 120

Opd
Early stages of mercury electrodeposition on HOPG, 120
Overlap models
Theory of the chronoamperometric transient for electrochemical nucleation with diffusion-controlled growth, 70

Oxidation
Oxidation of halides by redox enhanced ferricyanide in the $[Fe^{II}–CN–Pt^{IV}]_n$ coordination polymer: an optically triggered process, 99
Oxygen solubility
Comparative study on the oxygen dissolution behaviour in 62/38 mol% Li/K and 52/48 mol% Li/Na carbonate, 39

Photochemistry
Oxidation of halides by redox enhanced ferricyanide in the $[Fe^{II}–CN–Pt^{IV}]_n$ coordination polymer: an optically triggered process, 99
Poly(3-alkylthiophene)
Separation of pinhole and tunneling electron transfer processes at self-assembled polymeric monolayers on gold electrodes, 114
Poly(aniline)
Addition of α-hydroxyalkylferrocenes to electrochemically oxidized poly(aniline), 166
Polymer
Oxidation of halides by redox enhanced ferricyanide in the $[Fe^{II}–CN–Pt^{IV}]_n$ coordination polymer: an optically triggered process, 99
Polymethacrylonitrile
Electropolymerization of methacrylonitrile on a rotating disk electrode at high spinning rate, 14
Polyphenol-oxidase
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part I. Theoretical treatment of the catechol/polyphenol-oxidase system, 53
Polyphenol oxidase
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part II. Experimental study of the catechol–polyphenol oxidase system immobilized in a laponite clay matrix, 61
Porphyrazine
Cobalt(II) porphyrazine catalysed reduction of nitrite, 126
Pyridine
Adsorption of pyridine on a polycrystalline gold electrode surface studied by infrared reflection absorption spectroscopy, 136
Pyrrole
Electrochemical synthesis and structural studies of copolymers based on the electrooxidation of pyrrole and some salen compounds, 77
The electrochemical copolymerization of pyrrole and furan in a novel binary solvent system, 23

Reduction
Surface redox catalysis and reduction kinetics of hydrogen peroxide on copper–nickel alloys, 31
Reduction of Eu^{3+}
Electrode kinetics of Eu^{3+} in dimethylsulfoxide, 1
Rotating disk electrode
Electropolymerization of methacrylonitrile on a rotating disk electrode at high spinning rate, 14

Salen
Electrochemical synthesis and structural studies of copolymers based on the electrooxidation of pyrrole and some salen compounds, 77
Self-assembled monolayers
Assessing the apparent effective thickness of alkanethiol self-assembled monolayers in different concentrations of $Fe(CN)_6^{3-}$ /$Fe(CN)_6^{4-}$ by ac impedance spectroscopy, 9
Self-assembly
Separation of pinhole and tunneling electron transfer processes at self-assembled polymeric monolayers on gold electrodes, 114
Standard reaction rates
Electrode kinetics of Eu^{3+} in dimethylsulfoxide, 1
Substrate recycling
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part II. Experimental study of the catechol–polyphenol oxidase system immobilized in a laponite clay matrix, 61
Amplification of amperometric biosensor responses by electrochemical substrate recycling: Part I. Theoretical treatment of the catechol/polyphenol-oxidase system, 53

1,1,2-Trichloroethane
Synthesis of carbyne-like nano-particles by electrocatalytic dehydrochlorination of 1,1,2-trichloroethane, 96

Upd of alkali metal atoms
Electroreduction of nitrate ion to nitrite and ammonia on a gold electrode in acidic and basic sodium and cesium nitrate solutions, 46

Wall-jet electrode
Detection of near-wall hydrodynamic effects by electrochemiluminescence, 90
